## Durability Testing

- Test conducted by NATC on paved track with bare surface conditions
- Testing Standard ÖNORM V5121:2007 in accordance with WA State WAC 204-24-035
- 75 mile test at 25 mph or greater
- Result: Only modest wear after 75 mile test

Photo after completion of testing

Designed for durability, Alpha Trax is suited for use on mixed road conditions, reducing the frequency of uninstalling and re-installing.
